In line with the increase in Muslim tourist to Japan, Jesly Villa Tokyo will become a Muslim hub hotel for tourist to stay, eat and pray. We are very enthusiastic to welcome Islam in Japan and become the only Hotel to connect Japan and Islam in the world. We are planning to have a hotel branch especially after the 2020 Olympic that connect to all over Japan. We are planning to increase the number of premises

"We Open for People to Talk Freely"

It was a common point underlying between Jesly and my idea. As Japan is an island nation not much open for foreigners, and there is no religious culture and believing God is widely accepted. Even though the new generation is more open minded and welcome foreigners still difficult to accept women with black hijab and religion.

WE believe our new concept to link the Islam with japan will help to change the thinking of Islam among rural Japanese.

Am sure the attraction in Japan and our assurance of hospitality will make you will came again to Japan. We also believe that our mission is created an environment that allows us to smile. japan has so much culture and charm in Chiba. We know that Jesly Villa will awaken and to be recognized in the world and Japan as a country where you can really enjoy to stag. There is no sense of discomfort in the presence of foreigners tourist in the rural areas. It if helps Am very pleasure.
